Chief, Regulations Control Staff

12 August 1954

Office of General Counsel

Proposed [] Travel and Related Expenses,
Vessels of United States Registry

25X1

REFERENCE: a. Memorandum for General Counsel from Chief, Regulations
Control Staff, dated 21 July 1954, Subject as above.

25X1A8A b. Memorandum for Chief, [], dated 14 April 1954, Subject:
Attached Proposed Cable re Sea Travel.

1. The concurrence sheet for the subject proposed []
[] is returned herewith signed. We would recommend only
one minor technical change: the deletion of the words "as much
as" in paragraph 5 a. (2), third line, and the substitution
therefor of the words "for more than".

25X1

2. Paragraph 2 of reference a. called to our attention a
memorandum from the Deputy Comptroller dated 1 July 1954 with
regard to the subject [] We recognize that the subject
proposed [] enlarges upon certain areas treated in our
prior opinion. However, that opinion was based upon published
decisions of the Comptroller General available when it was written.
Since that date, the State Department has issued Foreign Service
Circular No. 81, whose provisions your proposed []
substantially follows. We understand from an informal conversation
with a cleared representative of the General Accounting Office
that his agency has approved the substantive provisions of this
Circular. Accordingly, we see no legal objection to the promul-
gation of an Agency [] which contains no material
departure from the provisions of the Circular.
